## Talent Management

Even though there are plenty of people looking for jobs, finding skilled, talented workers is harder than ever before because the war for talent is increasingly more competitive. Companies that engage in talent management are strategic and deliberate in how they source, attract, select, train, develop, retain, promote, and move employees through the organization.

SMG can support your organization with an integrated talent management strategy covering

- Performance management
- Leadership development
- Workforce planning/identify talent gaps
- Recruiting
- Make work an exciting and rewarding place to be

In addition, our consultants help you develop a talent management doctrine that facilitates the “fan out” of the principles and strategy throughout the entire organization to improve performance.

Together, we can win the talent war: Attract Develop and Retain Your Talent.
